Soybean Production Workshops Scheduled for December

HARRISBURG, PA (November 12, 2018) --The Penn State Extension Crop Management Team has scheduled four Soybean Production Workshops in December. These day-long workshops teach soybean producers new integrated pest and cultural management practices covering the entire growing season, from planting to harvest. Support for the workshops is provided in part by the Pennsylvania Soybean Board through the soybean checkoff.

Each workshop will feature Penn State researchers, experienced soybean growers, and county Extension personnel presenting information covering all aspects of soybean production from planting to harvest. Topics include information on optimizing variety selection and planting rates, fertility management, weed, insect and disease scouting and harvest management. CCA and pesticide credits are available at each location. The workshops will be held at the following locations:

Tuesday, December 11, 2018

Delaware Valley University, Mandell Science Auditorium, 700 East Butler Ave., Doylestown, PA 18901

Thursday, December 13, 2018

Logan Grange Hall, 122 N. Main St., Pleasant Gap, PA 16823

Tuesday, December 18, 2018

Penn State Extension Beaver County, 1000 3rd St., Suite #3, Beaver, PA 15009

Thursday, December 20, 2018

Penn State Extension Dauphin County, 1451 Peters Mtn. Rd., Dauphin, PA 17018

The Soybean Production Workshops run from 9:00 a.m. to 2:00 p.m. at each location. There is a \$15 fee to attend, which includes lunch and materials. Pre-registration is required one week prior to the workshop. Register online at extension.psu.edu/soybean-production or call 877-345-0691 weekdays between 8 a.m. – 5 p.m. Eastern Time to register by phone.

About the Pennsylvania Soybean Board

The [Pennsylvania Soybean Board](http://extension.psu.edu/soybean-production) is a farmer-controlled Board responsible for managing Pennsylvania's share of funds received from the nationwide Soybean Checkoff program. The funding is available under an assessment program, approved by Congress in 1990, under which soybean farmers contribute 50 cents of every \$100 they receive for their beans at the first point of sale. Funds are used to develop

markets, educate consumers, and research new ways to utilize and produce soybeans more efficiently.
